Notice of Creditable Coverage

Important Notice from Alaska Electrical Health and Welfare Fund About Your Prescription Drug Coverage and Medicare

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Alaska Electrical Health and Welfare Fund and new prescription drug coverage available January 1, 2006 for people with Medicare. It also tells you where to find more information to help you make decisions about your prescription drug coverage. **If you are not currently, or soon to be, eligible for Medicare, this notice does not apply to you.**

- 1. Starting January 1, 2006, new Medicare prescription drug coverage will be available to everyone with Medicare.**
- 2. Alaska Electrical Health and Welfare Fund has determined that the prescription drug coverage offered by the Trust Plan is, on average for all plan participants, expected to pay out at least as much as the standard Medicare prescription drug coverage will pay.**
- 3. Read this notice carefully - it explains the options you have under Medicare prescription drug coverage, and can help you decide whether or not you want to enroll.**

You may have heard about Medicare's new prescription drug coverage, and wondered how it would affect you. The Alaska Electrical Health and Welfare Fund has determined that your prescription drug coverage under the Plans listed below is, on average for all plan participants covered by these Plans, expected to pay out at least as much as the standard Medicare prescription drug coverage will pay:

- Active plans 500, 504, 505, 551, 552, 553, 555 and 556
- Retiree plans 583, 584, 585, 588 and 589

Starting January 1, 2006, prescription drug coverage will be available to everyone with Medicare through Medicare prescription drug plans. All Medicare prescription drug plans will provide at least a standard level of coverage set by Medicare. Some plans might also offer more coverage for a higher monthly premium.

Because your existing coverage is on average at least as good as standard Medicare prescription drug coverage, you can keep this coverage and not pay extra if you later decide to enroll in Medicare coverage.

People with Medicare can enroll in a Medicare prescription drug plan from November 15, 2005 through May 15, 2006. However, because you have existing prescription drug coverage that, on average, is as good as Medicare coverage, you can choose to join a Medicare prescription drug plan later. Each year after that, you will have the opportunity to enroll in a Medicare prescription drug plan between November 15th and December 31st.

If you do decide to enroll in a Medicare prescription drug plan, your prescription drug coverage through the Alaska Electrical Health and Welfare Fund will be terminated, and be aware that you may not be able to get this coverage back.

If you enroll in a Medicare prescription drug plan and lose your coverage with Alaska Electrical Health and Welfare Fund, you will not be able to get this coverage back later. You should compare your current coverage, including which drugs are covered, with the coverage and cost of the plans offering Medicare prescription drug coverage in your area.

You should also know that if you drop or lose your coverage with Alaska Electrical Health and Welfare Fund and don't enroll in Medicare prescription drug coverage after your current coverage ends, you may pay more to enroll in Medicare prescription drug coverage later. If after May 15, 2006, you go 63 days or longer without prescription drug coverage that's at least as good as Medicare's prescription drug coverage; your monthly premium will go up at least 1% per month for every month after May 15, 2006 that you did not have that coverage. For example, if you go nineteen months without coverage, your premium will always be at least 19% higher than what most other people pay. You'll have to pay this higher premium as long as you have Medicare coverage. In addition, you may have to wait until the next November to enroll.
